THE OHIO STATE UNIVERSITY WEXNER MEDICAL CENTER

THE OHIO STATE UNIVERSITY
WEXNER MEDICAL CENTER

You're passionate about improving lives. So are we.

The Ohio State University Wexner Medical Center is one of the largest academic medical centers in the nation, located on one of the most comprehensive health science campuses in the country. Here, our work revolves around a powerful mission: to improve health in Ohio and across the world through innovations and transformation in research, education, patient care and community engagement.

When you join us, you join in that mission. Being part of the Ohio State Wexner Medical Center means pushing the boundaries of discovery and knowledge while challenging yourself to do better.

It means rising to the world's most pressing health challenges — with a team of thousands by your side. Our wide-ranging expertise and extensive resources empower us to tackle these challenges in a way few others can match.

Share our mission. Challenge yourself. Join our team.

By the numbers

The Ohio State University Wexner Medical Center

24,800+ employees
2,100+ physicians
1,500+ resident physicians and fellows
5,600+ nursing staff
$7.27B revenue

The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (the OSUCCC – James)

Third-largest cancer hospital in the country
$73.2M+ in total National Cancer Institute (NCI) grant funding in 2025
39 new NCI grants awarded in 2025
755+ clinical trials available
6,800+ faculty and staff
700+ volunteers
1,500+ cancer researchers

The Ohio State University

42,800+ full-time-equivalent employees
18 colleges and schools
200+ undergraduate majors, plus 177 master's degrees, 104 doctoral programs and 8 professional degree programs
67,000+ undergraduate, graduate and professional students
600,000+ living alumni around the world

The Ohio State University College of Medicine

Tier 1 Best Medical School – Research
$477M+ in total funding
4.7K+ learners
2K+ research studies

The Ohio State University Wexner Medical Center

As one of the largest academic medical centers in the country, we've always been on the leading edge of education, discovery and patient care — and now we're going even further.

The Ohio State Wexner Medical Center, part of one of the most comprehensive health science campuses in the country and the only academic medical center in central Ohio, is at the forefront of medicine. Here, discovery and innovation in our research laboratories translates to unique and effective therapies — available to patients well before they reach other hospitals.

These initiatives take place across our vast healthcare platform: within The Ohio State University College of Medicine, at more than a dozen affiliated research centers and inside six hospitals, where more than 62,000 inpatients receive medical care annually.

In addition, we have a unified physician practice representing more than 2,100 preeminent physicians, and a network of community-based primary and subspecialty care facilities that manage more than 3.5 million patient visits each year. We offer healthcare services in virtually every specialty and subspecialty in medicine. Thousands of patients come to us each month for treatments and services they can't find anywhere else.

The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (OSUCCC – James)

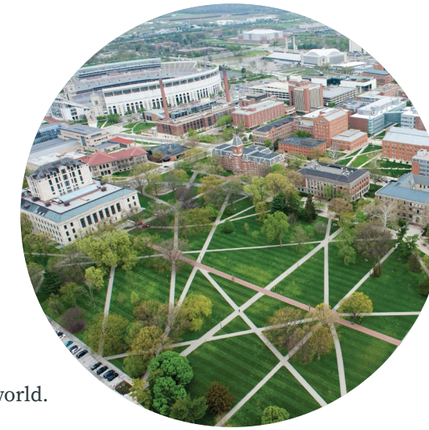

The OSUCCC – James strives to create a cancer-free world by integrating research with excellence in education and patient-centered care. Ohio State is a National Cancer Institute (NCI)-designated Comprehensive Cancer Center, a designation competitively maintained since 1976, and is one of only a few centers funded by the NCI to conduct phase I, II and III clinical trials on novel anticancer drugs provided by the NCI and the National Clinical Trials Network.

As the cancer program's 444-bed adult patient care component, The James is the third largest cancer hospital in the country and one of the best in the nation as ranked by *U.S. News & World Report*. With 21 floors and more than 1.1 million square feet, The James fosters collaboration and integration of cancer research and clinical cancer care.

To increase critically needed cancer research funding at the OSUCCC – James, Pelotonia was established in 2009 and has become the No. 2 cycling fundraiser in the country, raising more than $350 million since its inception. Thanks to the event's major funding partners, every dollar raised by participants goes toward innovative cancer research and initiatives such as the Pelotonia Institute for Immuno-Oncology at the OSUCCC – James.

The Ohio State University

The Ohio State University, located in the capital city of Columbus, is a major educational and economic force. Founded in 1870, we're one of the nation's largest and most comprehensive public research universities that's deeply committed to making a college education accessible and affordable for the next generation of leaders and engaged citizens.

Our size is our advantage: More than 42,800 full-time-equivalent faculty, researchers and staff work in and across nearly every area of expertise imaginable. With an unrivaled capacity to bring together people, ideas and resources, we're creating the solutions people need now. Together, with our students and far-reaching alumni community, our impact is felt around the world.

The Ohio State University College of Medicine

The Ohio State University College of Medicine, founded in 1914, is known for groundbreaking research and transformative models of comprehensive care. With more than 3,000 faculty members, the college comprises 20 clinical departments, eight basic science departments and the School of Health and Rehabilitation Sciences. As part of one of the nation's most comprehensive universities, inclusive of seven health science colleges, the College of Medicine unites a wide breadth of expertise, innovation and resources.

Ohio State Medical Group Practice and Ohio State University Physicians

The Ohio State Medical Group Practice (MGP) is the integrated faculty practice plan of The Ohio State University Wexner Medical Center. Bringing together physician faculty members, department leadership and the Health System, the MGP supports excellence in patient care, education, research and clinical innovation.

Through an integrated approach to physician compensation, strategic growth and clinical operations, the MGP fosters collaboration across specialties and care settings, creating opportunities for faculty members to advance academic medicine while delivering world-class care.

Ohio State University Physicians (OSUP) plays a vital role in advancing Ohio State's clinical mission. OSUP supports the academic faculty practices of The Ohio State University Wexner Medical Center by hiring and staffing many of the clinical and administrative personnel who enable faculty-led care, and also operates community-based primary and specialty care practices within the Wexner Medical Center outpatient care network. Across these settings, OSUP employs physicians, advanced practice providers, nurses, administrative professionals and support staff who deliver high-quality care at Wexner Medical Center locations throughout central Ohio.

OSUP also provides practice management and administrative services that support healthcare organizations, enabling clinicians and care teams to focus on providing exceptional patient care and improving the health of the communities they serve.

John J. Warner, MD
Chief Executive Officer, The Ohio State University Wexner Medical Center
Executive Vice President, The Ohio State University

Dr. Warner leads the vision, strategy and operating performance of The Ohio State University Wexner Medical Center's research, education and patient care mission across its hospitals, outpatient care centers, nationally ranked College of Medicine and research institutes. A national leader in academic medicine, he's dedicated to improving healthcare quality, safety and experience by putting patients and their families first.

Be part of the Buckeye Spirit

The Buckeye Spirit is how we honor the tradition of Ohio State — by bringing passion, commitment and joy to the people we serve. In everything we do at the Ohio State Wexner Medical Center, we embody the Buckeye Spirit through our shared values of empathy, determination, innovation, ownership and sincerity.

Empathy | Prioritizing the needs and acknowledging the feelings of others while serving

Determination | Reaching our highest potential despite challenges

Innovation | Fostering curiosity, originality and continual growth through new perspectives

Ownership | Protecting and enhancing our reputation even when no one is watching

Sincerity | Adhering to ethical standards and upholding our organization's integrity

Inclusiveness | Working together and valuing people of all backgrounds with respect and fairness

World-class care, every person, every time

When we're at our best, we make a real difference for people. From telehealth to inpatient care, the Ohio State Wexner Medical Center is there when and where our patients need us.

Thousands of patients come to us for treatments and services they can't find anywhere else. As one of the nation's leading academic medical centers, we offer healthcare services in virtually every specialty and subspecialty in medicine. Our treatment is deeply personalized because our resources are vast.

Scan the code to learn more about world-class care at Ohio State.

Just a few of our accolades:

In 2026, we celebrated our 34th consecutive year on the U.S. News & World Report *"Best Hospitals" list.* U.S. News *consistently ranks us as the top adult hospital in Columbus.*

This year, the Ohio State Wexner Medical Center has five nationally ranked specialties out of 14, and two were selected as high-performing. Rankings are based on outcomes, structure, patient experience and expert opinion.

We were the first hospital in central Ohio to achieve Magnet status for nursing excellence, a designation given to less than 10% of all registered U.S. hospitals.

We're one of the Becker's Hospital Review *"100 Great Hospitals in America" for excellence in clinical care, patient outcomes and staff and physician satisfaction.*

In 2026, Forbes *ranked The Ohio State University Wexner Medical Center as one of "America's Best Large Employers."*

MAGNET RECOGNIZED AMERICAN NURSES CREDENTIALING CENTER

BEST HOSPITALS U.S.News & WORLD REPORT RANKED IN 5 SPECIALTIES 2026–2027

NCI Designated Comprehensive Cancer Center

Becker's Hospital Review 100 Great Hospitals In America

Forbes AMERICA'S BEST LARGE EMPLOYERS POWERED BY statista 2026

Patient care by the numbers (FY26)

1,463 staffed beds

5,459 births

62,855 patient admissions

123,971 Emergency Department visits

3.5M outpatient visits

63,305 surgeries

149,370 telehealth visits

Unparalleled discovery

Research is an integral part of what makes The Ohio State University Wexner Medical Center such a force in the global medical community. Our investment in research and our commitment to the investigative process have led to many breakthroughs and innovative discoveries. We encourage research at all levels, knowing that the research seeds planted today will yield life-changing results now and in the future. The Ohio State University has one of the most comprehensive health science campuses in North America — with colleges of Medicine, Nursing, Pharmacy, Dentistry, Optometry, Public Health and Veterinary Medicine — adjacent to the tremendous resources and expertise of other university departments. This proximity fosters remarkable collaborations, which makes Ohio State unique in the country in its potential to promote scientific partnerships and the direct translation of research discoveries into new medical therapies and technologies.

With research centers dedicated to cancer, heart and lung disease, behavioral medicine and more, plus more than 140 shared core labs, we foster collaboration and shared resources that maximize grant dollars and time to discovery.

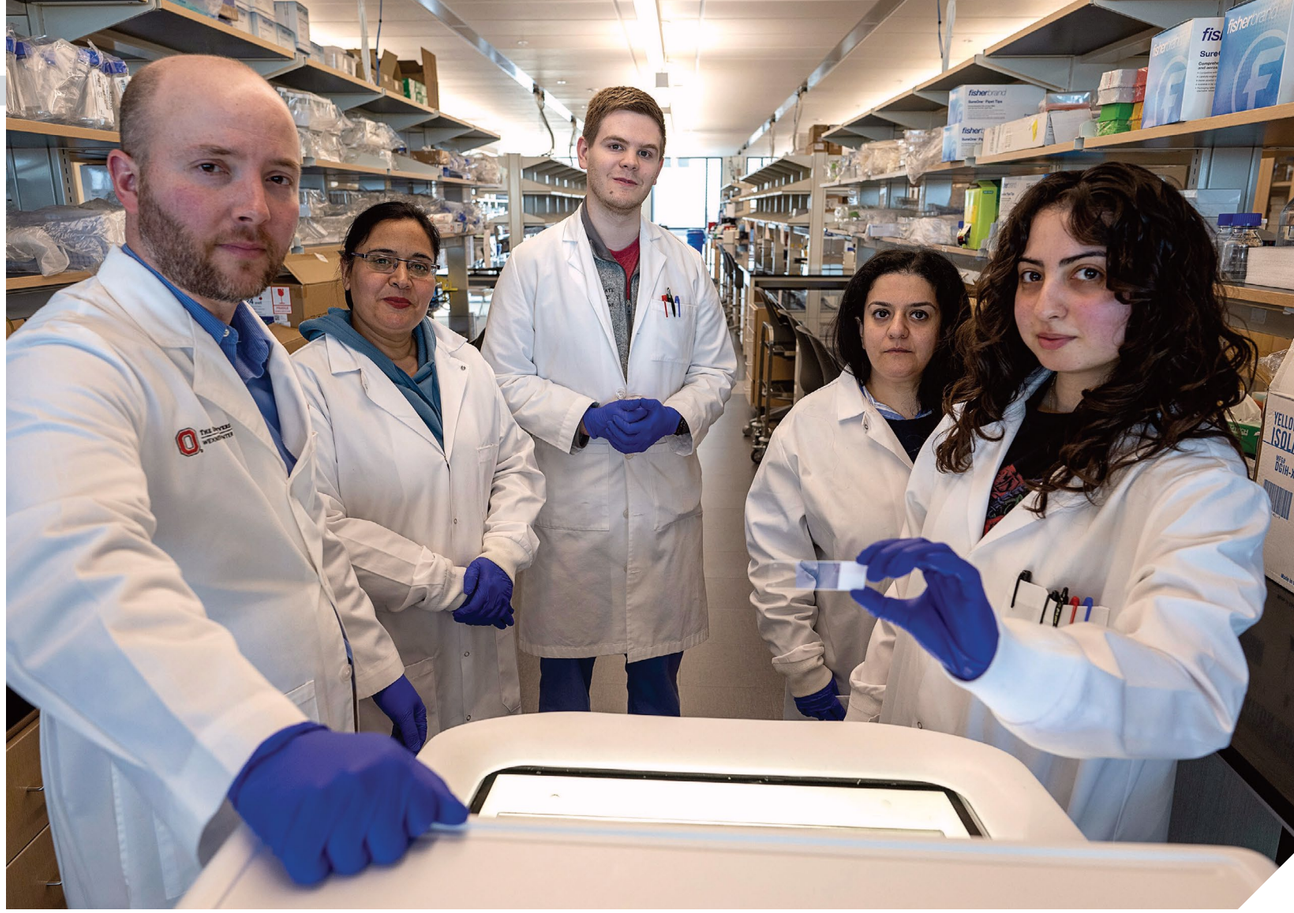

The OSUCCC – James contains five highly interactive and collaborative cancer research programs: Cancer Control, Leukemia and Hematologic Malignancies, Cancer Biology, Molecular Carcinogenesis and Chemoprevention, and Translational Therapeutics. More than 350 scientists from 12 of the 15 colleges at The Ohio State University are funded members of one of these research programs, with their work focused on basic, translational and population science. Altogether, Ohio State's cancer program comprises some 1,500 researchers. Because of cancer research, Ohio State has more than 680 cancer clinical trials available to offer patients more options and more hope.

The Pelotonia Research Center is a state-of-the-art facility that brings together a multidisciplinary team of Ohio State researchers and scientists. Innovation at the Pelotonia Research Center focuses on areas including cancer, gene- and cell-based therapies, cardiovascular and pulmonary medicine, neurological disease, microbiome, food systems and health, artificial intelligence, sensory biology, and social and environmental drivers of health. The center's goal is collaborative, curiosity-driven and solutions-oriented research that will ultimately save lives.

Included in the Pelotonia Research Center is the second home of the OSUCCC – James Pelotonia Institute for Immuno-Oncology, a bench-to-bedside research program focused on harnessing the body's immune system to fight cancer at all levels, and the home of the OSUCCC – James Center for Cancer Engineering – Curing Cancer Through Research in Engineering and Sciences (CCE-CURES), which designs, develops and integrates innovative engineering technologies and data analytics with cancer biology, biomechanics and fundamental science.

Research by the numbers

$477.5 million in total research funding secured in FY2026

796 new research awards advancing the future of medicine

Ranked No. **35** nationally for NIH-funded research, according to the Blue Ridge Institute for Medical Research

2,100+ active research studies and clinical trials in virtually every medical specialty

1.2 million square feet dedicated to discovery

Preparing the next generation

The Ohio State University is one of the most comprehensive universities in the world and one of the few with seven health science colleges on one campus. Our breadth allows students to pursue their academic passions while benefiting from novel interdisciplinary collaborations.

- College of Dentistry
- College of Medicine
- College of Nursing
- College of Optometry
- College of Pharmacy
- College of Public Health
- College of Veterinary Medicine

College of Medicine

For more than 100 years, The Ohio State University College of Medicine has combined innovative medical education with leading-edge research and science-based patient care.

We're proud of what we've accomplished and of our impact on the changing face of medicine. Our leaders have charted a course for the future as we continually evolve to meet ever-changing demands in medicine.

The Ohio State College of Medicine is consistently ranked among the top medical schools in the United States, both public and private. The college's innovative curriculum places students in clinical settings from the start of their first year. We're one of the few schools in the world to offer five dual medical degrees: MD/PhD, MD/MBA, MD/JD, MD/MHA and MD/MPH. Our School of Health and Rehabilitation Sciences offers degrees in health information management and systems, health sciences, medical laboratory science, radiologic sciences and therapy, respiratory therapy, physical therapy, occupational therapy, dietetics and nutrition and athletic training.

More than 80 accredited graduate and residency programs train more than 1,500 residents and fellows each year. In addition, physicians and other health professionals in approximately 150 countries access our web-based continuing medical education programming each year.

Supporting the health and wellness of our community

As a land-grant institution, we hold a special responsibility to take care of our Ohio communities.

Traveling to our patients

Various mobile units bring healthcare directly into underserved communities and make it easier for individuals to get important screening and preventive care.

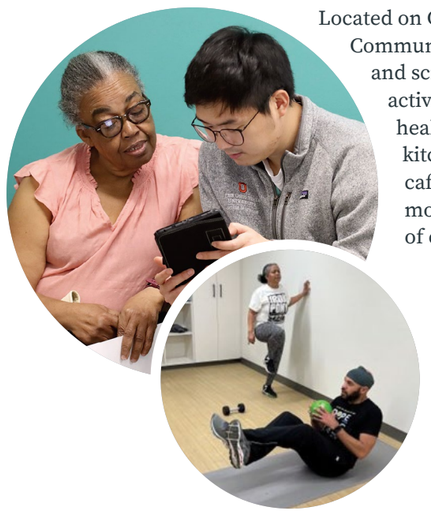

- The Ohio State Community Care Coach offers convenient, walk-in care from a broad team of healthcare professionals.
- The OSUCCC – James has two mobile units with the latest digital mammography technology.
- Our Mobile Education Kitchen travels across central Ohio to share healthy food and nutrition information.
- The James Mobile Lung Screening Unit makes it easier to get important pulmonary testing, especially for those living in rural and underserved communities.

Combating infant mortality

Franklin County's infant mortality rate is one of the highest in the nation, with Black babies dying at twice the rate of white babies. It takes an entire community to save our infants, so we're committing substantial professional and volunteer support to the cause.

A new model for healthcare

Located on Columbus' Near East side, the Healthy Community Center provides free health information and screening, along with special events and activities to help area residents create lifelong healthy habits. The center includes a teaching kitchen, community meeting spaces, a healthy café, an outdoor garden, fitness rooms and more. All events and activities are offered free of charge.

Scan to learn more about the Healthy Community Center.

Ohio State University Hospital – designed with the future in mind

The 26-story University Hospital is the largest single facilities project ever undertaken at Ohio State. It's designed to enhance a unified Ohio State Wexner Medical Center campus providing world-class patient care, leading-edge research and outstanding clinical training.

- **820 large, private rooms,** each equipped with advanced technology and safety monitoring blended with amenities designed to enhance comfort and create a healing environment.
- **An abundance of light throughout**, including 9-by-9-foot windows in every patient room
- **State-of-the-art diagnostic, treatment and inpatient service areas**, including 234 ICU beds, 51 neonatal ICU bassinets, 24 operating rooms and 10 interventional radiology suites.
- Other amenities include an outdoor terrace, a peaceful conservatory with natural light, a quiet sanctuary for all faiths, a 400-seat dining area, two coffee shops and mobile meal ordering.

Built for you

Our new hospital was not only designed for patients and visitors, but also for our own faculty, staff and learners. With their input, we've incorporated advanced technology to support workflows and improve how we work together and care for others.

Easy navigation – Our standardized floor plan ensures staff can quickly locate essential spaces on any floor.

Well-being support – Dedicated staff respite areas provide quiet spaces for reflection and rest.

Relax and recharge – Staff lounges feature an abundance of natural light and offer stunning city and stadium views.

Privacy – Single-use staff bathrooms and private staff changing spaces are located on every floor, along with private food lockers.

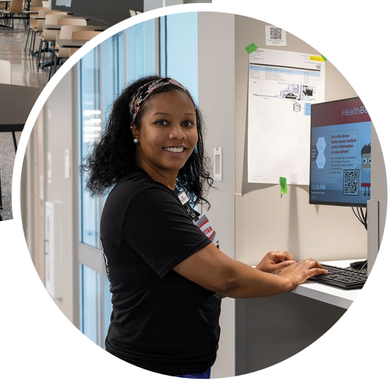

Comfort – Height-adjustable workstations enhance ergonomic comfort and staff safety.

Enhanced connections – The connectors between University Hospital and the OSUCCC – James allow for seamless patient care and collaboration.

Working parent support – Sixteen lactation rooms are equipped with multiple workstations, privacy curtains, breast pumps, sinks, microwaves, refrigerators and computers.

To explore more of our new University Hospital, scan this QR code or visit go.osu.edu/viewUH.

Our hospitals

Across the university, we're paving our bold, innovative path forward by building the campus of the future to support teaching, learning, research and patient care. This extraordinary undertaking includes the expansion of our premier academic medical center.

New University Hospital: Our flagship facility with some of the region's most advanced technology and state-of-the-art inpatient care.

Additional diagnostic and treatment space is also available at nearby **University Hospital – Pavilion**, **University Hospital – Rhodes Hall** and **University Hospital – Doan Hall**.

Dodd Rehabilitation Hospital: Home to our acclaimed inpatient program specializing in stroke, brain and spinal cord rehabilitation.

East Hospital: Blends the friendly atmosphere of a community hospital with all the advantages of a major medical center.

Ohio State Harding Hospital: The most comprehensive psychiatric and behavioral health services in central Ohio.

The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute: The third largest cancer hospital in the country and the first freestanding cancer hospital in the Midwest, with satellite clinics such as the Stefanie Spielman Comprehensive Breast Center and The James Outpatient Care, which has central Ohio's only proton therapy center.

Richard M. Ross Heart Hospital: The nation's first hospital dedicated to cardiovascular care.

Our central Ohio facilities

Beyond our six hospitals, the Ohio State Wexner Medical Center has more than 100 facilities across central Ohio to provide convenient patient access and the space needed for the most technologically advanced research, teaching and patient care possible, including a network of primary care, outpatient and urgent care facilities, as well as dedicated specialty facilities for sports medicine, ENT and more.

Scan to read about our other facilities.

Collaborative medical and health science campus

The College of Medicine and the Interdisciplinary Health Sciences Center are housed in a recently renovated and expanded space totaling more than 220,000 square feet. This upgraded facility supports our focus on interdisciplinary curriculum across the seven health science colleges to better match the way healthcare professionals practice and face challenges in the real world.

Pelotonia Research Center

This five-story research center advances the university's strategic plan and framework with state-of-the-art laboratories serving multiple research disciplines, including biomedical, life sciences, engineering and environmental sciences. In addition, two floors are dedicated to the OSUCCC – James, including a second home for the OSUCCC – James Pelotonia Institute for Immuno-Oncology and a home for the OSUCCC – James Center for Cancer Engineering.

Ohio State Outpatient Care facilities

We've expanded the number of outpatient care facilities across central Ohio to bring our world-class care into the community. One location focuses on cancer care, while eight others simplify access to a broad range of medical specialties.

Oupatient Care Powell, opened in 2026, is bringing specialty and cancer care closer to patients in Delaware County and nearby communities.

Columbus unexpected

We know you're interested in life beyond the hospital walls – and we're proud to say Columbus offers the best of big-city culture with small-town affability.

Why make your home in Columbus?

It's affordable

A dollar goes further here. The cost of living is 7% below the national average, and our average rent and home prices will leave you pleasantly surprised. As of 2026, the median monthly rent was around $1,350, and the median home price was $350,000, with homes ranging from $200K to over $700K, with many clustered in the $300K–$400K range. You don't have to live far from the city's center to get a great deal, either — our commutes are actually shorter than the U.S. average.

It's smart

Home to an expanding number of startup businesses, in addition to five Fortune 500 and 18 Fortune 1000 companies, Columbus harbors a spirit of innovation that attracts the best and brightest. We also produce the best and brightest at our top-ranked public and private schools. Learn more by searching Ohio's School Report Cards.

It's thriving

One of the fastest-growing cities in the country, Columbus is the 15th-largest city in the United States and the second-largest in the Midwest behind Chicago. We're home to an impressive list of employers and celebrated for our job creation. Oh, and we know how to have fun: Our arts and entertainment options will keep your calendar fully booked, while our acclaimed food scene will satisfy your cravings from sushi to schnitzel. If you're into sports, we've got professional hockey and soccer teams as well as a college football program you may have heard about.

It's always evolving

Columbus embraces change and the energy that comes with growth. Our population is projected to reach over 3 million by 2050, and we've already begun adding infrastructure and resources to support this expansion. Today, there are more than 100 nations represented in Columbus, and each newcomer enriches our city's culture.

A youthful, entrepreneurial energy has fueled a lot of changes in Ohio's capital, a fashion design hub (you read that right) brimming with creative restaurants, craft breweries, distilleries and small-batch coffee roasters. *– Chicago Tribune*

With a revitalized riverfront and booming downtown, Columbus is already one of the nation's fastest-growing cities. *– The New York Times*

If there's one thing we know about the Midwest now, it's to stop expecting certain things from the Midwest, and certainly not Ohio's capital city, which has a nearly Sun Belt-esque buoyancy about it these days, as it welcomes all-comers, from all over the world, into the ever-growing fold. *– Food & Wine*

Explore Columbus

Eat and explore

Columbus knows how to satisfy your cravings. While we're the hometown of nationally known food brands — such as Jeni's Splendid Ice Creams, Wendy's, Bob Evans and White Castle — there are plenty of tempting dishes from talented local chefs. Just a few options:

- **North Market:** In operation since 1876, this downtown spot is central Ohio's oldest operating public market, housing a variety of independent local merchants, fresh food vendors and international eateries.
- **Arena District:** Restaurants, bars, sporting events, concerts, movies and entertainment, all just steps from the Greater Columbus Convention Center, Huntington Park and Nationwide Arena.
- **German Village:** Great food and craft beer where Columbus' German immigrants got their start.
- **Short North:** Eat, drink, shop and admire the art in the culturally rich Short North Arts District, which you'll recognize by the 17 lighted arches that frame this famed stretch of High Street.

Cheer – and join in

Whether you're a fan or a participant, Columbus offers plenty to get your heart pumping. A few of the teams and activities:

- **Columbus Blue Jackets**, National Hockey League team
- **Columbus Crew**, Major League Soccer team
- **Columbus Clippers**, AAA Major League Baseball affiliate of the Cleveland Guardians
- **Columbus Fury**, Major League Volleyball team
- **More than 50 golf courses** within a 15 mile radius of Columbus
- **PGA Memorial Golf Tournament**, hosted by Jack Nicklaus
- **The Arnold (Schwarzenegger) Sports Festival**, four days, 60+ sports and 12,000+ athletes from around the world
- **Nationwide Children's Hospital Columbus Marathon**

Bring the family

Kid-friendly Columbus is bursting with family entertainment:

- **COSI (Center of Science and Industry)**, named "No. 1 Science Center for Families" by *Parents* magazine
- **Columbus Zoo and Aquarium**. Be sure to visit Zoombezi Bay right next door
- **Columbus Metropolitan Library**
- **Ohio State Fair**, which draws more than a million visitors for the 12-day event
- **Ohio History Center and Ohio Village**
- **Franklin Park Conservatory and Botanical Gardens**
- **Olentangy Caverns**
- **Columbus Children's Theatre**
- **Red, White and BOOM!**, Ohio's largest fireworks display

Corporate Columbus

Columbus boasts an impressive list of employers. Some of our largest — and also some of our most generous community philanthropists — include:

- JPMorganChase & Co.
- Nationwide Mutual Insurance Co.
- Honda
- Bath & Body Works, Inc.
- Huntington Bancshares Inc.
- Cardinal Health
- American Electric Power
- Bread Financial
- Abercrombie & Fitch
- CoverMyMeds
- Wendy's International
- Kroger Co.
- Amazon
- Rogue
- Giant Eagle, Inc.
- Anduril
